

Effective April 1, 2016

**Irrigation Single Phase Service**

**APPLICABILITY**

Service under this schedule is applicable to services that are single phase, standard voltage, and supplied through one point of delivery for farm and ranch members for the operation of irrigation pump motors no greater than 10 horsepower in rating.

**AVAILABILITY**

Service under this schedule is available at points on the Cooperative's interconnected system where existing facilities of adequate capacity and desired phase and voltage are available, and additional investment by the Cooperative for new transmission, substation, or terminal facilities is not necessary to supply the desired service.

Irrigation is a seasonal rate which begins with the member's meter reading for the April billing cycle and ends with the member's meter reading for the October billing cycle (March 25<sup>th</sup> – October 24<sup>th</sup>).

If electric service is not going to be used anytime during the irrigation season, the Cooperative will be notified so that electric service can be disconnected. Service that has been disconnected for the season will be subject to the idle service fee. Irrigation service used anytime throughout the irrigation season will be subject to paying the Minimum Charge in addition to the charges for any power used

**METER READ**

Meters will be read by the Cooperative on the 24th of each irrigation month at midnight.

**MONTHLY CHARGE**

The Monthly Charge is the sum of the Access Charge and kWh charge at the following rates:

Access Charge	Kilowatt hour (kWh) Charge	SREC Rate Designation
\$126.00 per month	\$0.047 per kWh	621

**MINIMUM CHARGE**

The monthly minimum charge shall be the Access Charge collected over 5 billing cycles (May thru September).

**ABANDONED SERVICE**

Should a member's service be physically disconnected for a continuous 12-month period, the Cooperative reserves the right to physically retire the service anytime thereafter.

**NON-SEASONAL USE**

This service is available October 25<sup>th</sup> through March 24<sup>th</sup> upon prior approval of SREC management. The total connected load shall be no more than 100 amps. Requests for non-seasonal use must be made prior to the conclusion of the current irrigation season or a \$25.00 connect fee may be applied. Charges for non-seasonal use follow: one-time access charge of \$30.00 billed in the April billing cycle; and power (kWh) billed at the irrigation rate in the April billing cycle.

**FEES**

Membership	\$10.00
Disconnect Notice	\$25.00
